

Abbey Group has had the unique experience of working with Anick and Associates to serve our nonprofit clients for almost 20 years (St. Francis Mission being one of our clients). If you are looking for a partner who can deliver the most professional approach to all your development back office needs, choose Anick.

Working with Anick is seamless. Donors receive thank you letters within 24 hours, ensuring they feel appreciated. Campaign pledges are tracked and Anick staff follows up with friendly reminders to every pledge. Anick provides any type of development report you need to steward and cultivate your donors.

With the systems in place to merge all development and accounting data, reports are delivered in a timely manner and in the format you require.

You can count on the Anick accounting staff to provide accurate and timely monthly financial statements and provide any detail you need for your board or staff.

Donors and our nonprofit clients who utilize Anick's services have only the kindest comments to share about Anick's professional approach. Just like us.
